3. Accordingly, the matter was deliberated in the meeting and the representative of company demonstrated their products. The Committee examined the documents relating to flow rate analysis, certificate of analysis for plastic used in manufacturing of the plastic containers for the applied formulations. During the demonstration of the products, the Committee observed that certain clarifications regarding the flow rate of the products are required. After deliberations, the Committee directed that the authorized person of the company who is well versed with the subject to appear in the next meeting of Committee for detailed demonstration.

Agenda Item No. 13: Review application of M/s Vantive Healthcare Private Limited under Para 31 of DPCO, 2013 against NPPA's notification S.O. No. 5018(E) dated 04.11.2025 for the formulation "Peritoneal Dialysis Solution".

1. The Committee noted that 'Peritoneal Dialysis Solution' is a scheduled formulation and NPPA has fixed ceiling prices in the 138th Authority meeting held on 30.10.2025 and the same was notified vide SO 5018(E) dated 04.11.2025.
2. The Committee was informed that M/s Vantive Healthcare Private Limited filed review application against the notification raising objections on the inclusion of their brand "Extraneal" peritoneal dialysis solution stating that it should not be covered under the ceiling price or separate ceiling price should be fixed for 'Extraneal'. The matter was examined by DoP, and in its review order dated 20.03.2026, the case is referred back to NPPA for re-examination to consider whether a single ceiling price should apply to both glucose-based Peritoneal Dialysis Solutions and Icodextrin-based Peritoneal Dialysis Solution (Extraneal), or whether separate ceiling prices should be fixed under the extant provisions of DPCO, 2013.
3. The Committee deliberated upon the matter and directed that the authorized person of the company who is well-versed with the documents and claims submitted may be given an opportunity to appear before the committee in next meeting to present their case and demonstrate the product.

Agenda Item No. 14: Ceiling price fixation of IV Fluids formulations under NLEM, 2022.

1. The Committee noted that the ceiling prices of IV Fluids formulations have undergone revisions since 2014 on account of issues relating to pack-size wise pricing, categorization of packaging materials, admissibility of special features, and directions issued by the Department of Pharmaceuticals through various review orders. The Committee further noted that different methodologies are presently being followed for different IV Fluids formulations.
2. The Committee recalled that in its 16th meeting held on 13.02.2020, in case of ceiling prices of Ringer Lactate with special features the Committee recommended an increase of 15% over and above the ceiling prices notified for ringer lactate mentioning that there is minor innovation in the packaging of the ringer lactate having the special features. The recommendation of the Committee was approved by the Authority in its 73rd meeting held on 25.02.2020. Since then, the Committee has followed the same methodology while recommending the separate prices under Para 11(3) for the pack with the special features.
3. The Committee was informed that the matter regarding fixation of Ceiling price of IV Fluids under NLEM 2022 was deliberated in the 146th Authority Meeting held on 26.05.2026 wherein it was noted that over the years, the formulations having "special features" packaging have evolved into a significant market segment with substantial market turnover. Accordingly, the Authority decided to refer the matter to MDC for further examination regarding methodology for fixation of ceiling prices of IV Fluids including packs with special features.
4. The Committee deliberated upon the matter and observed that there exists substantial price difference between the non-glass packaging vis-à-vis non-glass with special features in some of the formulations (Glucose 5%, Sodium Chloride 0.9% and Glucose 5% + Sodium Chloride 0.9%); however, the difference on account of special features is a minor innovation in the packaging only. Further, the methodology for pricing of IV Fluids cannot be different for similar nature of IV Fluids since it is only the fluid that is changing inside the container and not the container itself.

5. Accordingly, the Committee recommended that the methodology of calculating separate prices by allowing 15% in addition to already notified ceiling prices may be followed uniformly while fixing the prices of all IV Fluids with special features packaging under NLEM 2022. The Committee also mentioned that this methodology has earlier been accepted by the Authority while fixing price of various IV Fluids (except for the three formulations as mentioned in para 4 above) and the industry and other stakeholders have also accepted this methodology.

Agenda Item No. 15: Application for exemption of 'New Drug'- Povidone Iodine Throat Spray 0.45 % w/v under Paragraph 32(iii) of the Drugs (Prices Control) Order 2013.

1. The Committee recalled that the matter was deliberated in 75th MDC meeting held on 11.02.2026 wherein it was noted that the other products available in the market are not approved by CDSCO, therefore their quality, safety, efficacy cannot be established and they cannot be compared with the product which has been approved by CDSCO following due process based on clinical trial conducted by the company. The Committee also noted that the applied formulation Povidone Iodine Throat Spray 0.45% w/v is a new drug involving novel delivery system developed in a lab approved by DSIR for indigenous research and development. The Committee recommended to grant exemption under Para 32(iii) of DPCO, 2013 to M/s G.S. Pharmbutor Private Limited for “Povidone Iodine Throat Spray 0.45% w/v” for a period of five years from the date of its market approval in India.

2. The Committee was informed that the matter was placed in 144th Authority meeting held on 24.03.2026 wherein it was decided to defer the matter for further examination in order to meet the requirement under Para 32(iii) of DPCO, 2013.

3. The Committee after detailed deliberations on the matter observed that there are two important parameters to be fulfilled for exemption under para 32(iii) viz., new drug involving a new delivery system and indigenous research and development. The company has submitted new drug permission from CDSCO granted for the first time for this product in support of new delivery system and also demonstrated their product before the Committee. Further, with regard to indigenous research and development, the company has stated that the product has been developed in a lab approved by DSIR and submitted lab approval documents by DSIR. The Committee requires specific evidence that the product in question is in its true sense a product developed through indigenous research and development since this is the specific claim of company for seeking exemption under Para 32(iii). Accordingly, the Committee directed that the company may be asked to furnish documentary evidence substantiating their claim.

The meeting ended with a vote of thanks to all.
